Paul, I split all the wells you list below plus PZ-101-SS and PZ-113-AS for a total of twelve wells split. I also did a split duplicate on well D-6.

Principles and integrity are expensive, but they are among the very few things worth having.

Dan,

Based on review of the field sampling records, it appears that EPA collected split samples from the following 11 wells:

D-3
D-6
D-12
I-11
MW-102
PZ-112-AS
PZ-206-SS
PZ-207-AS
PZ-305-AI
S-61

Is that correct? Also did you collect any duplicates of these samples?

Thanks,

Paul
